A. The purpose of this amendment is to incorporate changes in Section J1, Electrical Distribution System, of solicitation SP0600-03-R-0071.

1. In section J1.11, Government Recognized System Deficiencies, Remove the previous section J1.11 and replace with:

J1.11 Government Recognized System Deficiencies

Table 8 provides a listing of system improvements that the Government has planned. The Government recognizes these improvement projects as representing current deficiencies associated with the MacDill AFB electric distribution system. The listing reflects the base's short term plan and intent to bury main overhead distribution lines in an effort to reduce/eliminate unscheduled outages due to lightning, animal interference, and overloading. It is also the base's intent to replace overhead lines with buried lines at the end of the service life. If the system is sold, the Government will not accomplish these planned improvements. The Contractor shall make a determination as to its actual need to accomplish and the timing of any and all such planned improvements. Capital upgrade projects shall be proposed through the Capital Upgrades and Renewal and Replacement Plan process and will be recovered through Schedule L-3. Renewal and Replacement projects will be recovered through Sub-CLIN AB.
